

awards

**packWall**

after a successful validation procedure and  
confirmation by the jury the certificate

The products successfully passed a complex ecological sustainability examination procedure supervised  
by an independent scientific sustainability institute.

The products receive this award with approval by an independent jury and are thus entitled  
to use the seal for all communication purposes until 31. December 2022.

This is a registered and protected EU certification mark for ecological sustainability with independent,  
transparent and neutral certification procedures.
